

HOW WE CLEAN GUIDE

DRAPES

- ✓ Drapes are firstly inspected for any rips or tears.
- ✓ A thorough industrial pre vacuum all over to remove all the dry soils.
- ✓ A dry solvent is applied & dry chemical sponge are used to remove the oils, stains and residue.
- ✓ Drapes are mostly dry when the technician leaves & you receive a 14 day satisfaction guarantee.

RUGS

- ✓ Definite price given after inspection of the rugs size & condition and are usually cleaned with our dry cleaning method (see carpet cleaning).
- ✓ If rugs are heavily stained it's a thorough pre vacuum on both sides with industrial strength Kirby.
- ✓ A hot water extraction method is used to remove oils and stains then our dry cleaning method is used also to give the best possible cleaning result.
- ✓ Takes between 1 & 4 hours to be completely dry & you receive a 14 day satisfaction guarantee.

STAIRS

- ✓ General spot & stain treatment to penetrate the stains.
- ✓ A hand pad is used to agitate the dirt & oils then a hot water extraction method is used.
- ✓ Finishing with a carpet groomer to lift the pile back up and to assist in drying time.
- ✓ Drying time is between 2 and 4 hours & you receive a 14 day satisfaction guarantee.

EGARD

- ✓ Egard now has Healthguard added & provides fantastic protection from spills like coffee & wine and the added Healthguard kills the germs, bacteria and fungi for up to 3 years.
- ✓ Egard can only be applied to carpets we have just cleaned or if the carpet is brand new, this is because when applied it coats the entire fibre leaving a superior finish.
- ✓ Is applied as a spray after cleaning & takes around 2 hours to settle & cures within 24 hours and we suggest to keep animals and children away for between 1-2 hours, comes with a 3 year warranty.

DMI

- ✓ DMI is highly effective in the reduction of bacteria, dust mites, mould, fungi and unpleasant odours. It is environmentally friendly to use anywhere in the home.
- ✓ It is especially effective in reducing the risk and symptoms of asthma, allergies, hay fever and Eczema.
- ✓ DMI creates a durable barrier that prevents re infestation for up to 6 months by inhibiting microbial growth and denying the dust mites a food source, after 6 mths simply re-apply for continued protection.
- ✓ Clinically proven to be at least 99% effective.
